This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

REPORT

OFFICE OF THE
STATE BOARD OF TAX COMMISSIONERS,
ALBANY, N. Y., *March* 7, 1904

To the Legislature of the State of New York:

In compliance with statutory requirement, report is hereby made to your honorable body for the year 1903:

SPECIAL FRANCHISES.

The most important event of the year affecting this Department was the decision of the Court of Appeals, handed down April 28th, by which the highest tribunal of the State upheld, unanimously, the constitutionality and administration of the Special Franchise Tax Law at every point. This law was passed at a special session of the Legislature of 1899, and valuations under its provisions were first made in 1900. From these valuations some of the larger corporations appealed. The principal grounds for contesting the validity of the act were alleged:

First: The Special Franchise act is a violation of the home-rule provision of the State Constitution (section 2, article 10).

Second: It is a violation of the provisions of the federal constitution which forbids a State to pass "any law impairing the obligation of contracts."

Third: Street franchises, acquired by consolidation, should have been assessed separately and not as one franchise.

Fourth: The State Board of Tax Commissioners did not adopt any certain or fixed rule or method in making the assessments.

Fifth: No proper hearing was given to the relators at the time of the review, and no information imparted as to the "basis, theory, rule or principle" on which the Board acted in making the assessments.

Sixth: The relators did not have due process of law in the taxation of their property.

Seventh: The act is impracticable, and therefore a nullity.

Eighth: That the property of the relators was assessed at a rate equal to 100 cents on the dollar; that is, full value, whereas other real estate in the same tax districts was assessed at a much lower rate.

Ex-Chief Judge of the Court of Appeals Robert Earl, acting as referee, in an exhaustive opinion sustained the law and its administration in every respect, and the Supreme Court adopted his findings of fact and conclusions of law. An appeal taken to the Appellate Division, in the Third Judicial Department, was affirmed as to the facts but reversed as to the law on the ground that the act in question violated the home-rule provision of the State constitution (article 10, section 2). From this decision the State Board of Tax Commissioners appealed to the Court of Appeals and the final decision, reversing the Appellate Division, reviews in detail the home-rule provision of the State constitution.

Five of the corporations affected by the Court of Appeals' decision have appealed to the United States Supreme Court, but it is generally believed by careful observers that the highest court is likely to affirm the Court of Appeals upon this matter of State concern, it being the conceded right of a State to determine what property shall be taxed and in what manner under the conditions found by our highest court in this issue. With few exceptions the payments of taxes upon such special franchise valuations as awaited the Court of Appeals' decision have been made in the localities concerned directly, or have been adjusted in the courts.

The Commissioners, during the year 1903, made 4,506 special franchise valuations, aggregating $284,798,592, an increase over the previous year of $16,780,822.

In tables appended may be found in detail reports of the cases in litigation, upon writs; and also of such as have been adjusted in court through the Attorney-General's department during the year past. There is disclosed an exceptionally large adjustment

of valuations and of taxes paid in special franchise cases following the Court of Appeals's decision.

It has been held by the Appellate Division of the Fourth Department, in the case of the Buffalo street railroad company, that a percentage payment to a city upon gross receipts is in the "nature of a tax," and is deductible from the tax accruing upon the valuation fixed by this Board. It is expected that appeal from this decision will be taken, but until a ruling to the contrary is handed down by the Court of Appeals such deductions are in compliance with the law. This has especial application to New York City in a number of minor valuations—where rentals are payable to that municipality upon certain street rights—converted into special franchises, under chapter 712 of the Laws of 1899.

Special franchise valuations for 1904 for the six cities to which final certification must be made before April first are now being made.

TOWNSHIP'S APPEALS.

An appeal taken by the town of Mount Pleasant, Westchester county, from the equalization made by the Board of Supervisors in 1902, was, by stipulation, discontinued. There is at this date no appeal awaiting action by this Board.

It is not often, as shown by the records, that the courts are asked to review a decision of this Board upon an appeal of a township from a county equalization. It is notable therefore that during 1903 such a review was asked and had in the appeal of the town of Preble against the Board of Supervisors of Cortland county. It is gratifying to this Board to report that its dismissal of the appeal of Preble, upon the evidence adduced, has been approved by the Appellate Division of the Third Department.

CONFLICTING AMENDMENTS TO SECTION 178 OF THE TOWN LAW.

The State Board of Tax Commissioners coming, as they do, into close contact with the local assessors, and being familiar with their work, have long been of the opinion that the compensation of rural assessors should be increased, and have repeatedly made recommendation to that effect. Pronounced betterment of this important local service cannot but be worked by better pay.

The Legislature of 1903 passed an act so amending section 178 of the Town Law, relative to the compensation of town officers, as to permit the town board of any town to determine the compensation of assessors within a limit of $3 per day each. This act became a law on May 6, 1903, by approval of the Governor, and is known as chapter 324 of the Laws of 1903. On May 9th, three days later, another act passed by the Legislature amending this same section 178 was signed by the Governor and is known as chapter 492. This act provided that in any town which had adopted the money system for highway purposes the town board might fix the compensation of the commissioner of highways of such town at a sum not to exceed $3 per day, but omitted all mention of assessors, thereby practically nullifying the provisions of chapter 324 which related to the compensation of assessors, the act last signed being the one in effect as law.

Assemblyman Steele, of Herkimer county, in a bill introduced by him at the current session, seeks to remedy the condition above set forth.

LEGALLY EXEMPT REALTY.

Attention is particularly called to the table herein disclosing the increase in exempt real estate, which has reached the sum of $1,007,992,364, or nearly 20 per cent. of the State total of real

estate assessed. This is an increase of $154,713,274 over the previous year; and since 1900 the increase is $284,647,523, nearly 40 per cent. in three years, while the increase in the assessment of real estate for the corresponding period is only 4 per cent. This large increase of exemptions appears in property belonging to cities and religious and charitable institutions, and is undoubtedly due principally to the advance made in the assessment of realty in New York City. In this connection suggestion is renewed that chapter 689 of the Laws of 1900, providing that returns be made by cities only, be amended along the lines of the Monroe bill introduced into the last Legislature, again introduced and now pending, extending its application to all subdivisions of the State as well as to property exempt not now shown upon the assessment rolls.

THE POLL TAX.

The existing situation in the matter of the assessment of highway labor, or a poll tax, regarding which uncertainty prevails in some sections, is as follows:

Section 33 of the Highway Law provides that:

> "Every male inhabitant being above the age of 21 years (except all honorably discharged soldiers and sailors who lost an arm or a leg in the service of the United States during the late war, and who are unable to perform manual labor by reason of injuries received or disabilities incurred in such service; members of any fire company formed or created pursuant to any statute and situated within such town; persons 70 years of age; clergymen and priests of every denomination; paupers, idiots and lunatics); shall be assessed at least one day."

Chapter 242 of the Laws of 1902, being an amendment to section 65 of the General Highway Law, provides in part as follows:

> "In those towns in which the money system of taxation has been adopted, any person who is taxed a poll tax for highway purposes, as provided in section 53 of this chapter, who does not pay such tax in the manner and at the time prescribed by law, shall be liable to a penalty of $5. The penalty herein imposed may be recovered by an action by the overseer of highways as such, or by the highway commissioner in towns having no such overseer, and when collected shall be

expended and disposed of by the overseer or commissioner in the same manner as commutation money. The penalties, when recovered, shall be applied in satisfaction of the labor assessed, for the omission to perform which the penalties were respectively imposed. The overseer of highways may excuse any omission to perform labor when required, if a satisfactory reason shall be given therefor; but the acceptance of any such excuse shall not exempt the person excused from commuting for or working the whole number of days for which he shall have been assessed during the year."

In connection with this provision of law, attention is called to section 1487 of the Code of Civil Procedure, which provides as follows:

"When a judgment can be enforced by execution as prescribed by section 1240 of this act, an execution against the person of the judgment debtor may issue thereupon, subject to the exceptions specified in the next section, in either of the following cases. * * * In any other case where an order of arrest has been granted and executed in the action, and if it was executed against the judgment debtor, where it has not been vacated."

Section 549 of the Code of Civil Procedure provides in part as follows:

"A defendant may be arrested in an action, as prescribed in this title, where action is brought for either of the following causes: First, to recover a fine or penalty. * * *"

THE ULSTER COUNTY AWARD.

There are on file with the Court of Claims approximately $1,000,000 in claims for refund on taxes paid the Comptroller by town bond created railroads. The Court of Appeals directs, in the test case of Ulster county, repayment by the State to county treasurers of taxes so paid to the State. Before such repayment can be made each claim must needs be heard and passed upon by the Court of Claims and thereafter legislative appropriation provide payment for the awards found by that tribunal. This has been a most interesting tax issue and the opinions of the Appellate Division and Court of Appeals supply engrossing material to those concerned in matters of taxation.

PERSONAL PROPERTY.

The personal property situation is anomalous, much depending apparently upon the Sherlock Holmes qualities of local assessors. At a one per cent. rate upon various classes of personal property, namely, the capital stock of banks and trust companies and savings banks' surpluses, there was in 1902 collected in taxes for State and for localities more than $5,000,000 besides an increase of $147,054,111 in the total personal assessment secured by local assessors for local purposes and subject to local rates. The setting apart of the personal property of certain financial institutions and applying thereto a small fixed rate suggests a partial solution and advancement in the treatment of that class of property generally, which, though visible, is made invisible oftentimes to the local assessors.

We have examined the reports of the tax commissions of many States, which treat profoundly and at great length upon this problem, and have prepared and present herewith a table showing the assessed valuation of real and personal property in many of the States.

With scarcely an exception, in every State there is in operation a system of taxation chaotic and unscientific. A former State Comptroller, in endeavoring to show the confused, illogical and conflicting condition of our various laws for raising revenue, said: "They have been largely adopted from time to time simply to meet increasing expenditures of the State, with little regard to economic or any just principle, and framed rather in accord with the witty Frenchman's definition of taxation, 'the plucking of the goose in such a manner as to get the most feathers with the least squawking.'"

The board of assessors of an eastern State, in reviewing the several systems of taxation now extant, says, in substance, that the trend of taxation legislation of the several States is an interesting study. No public question is so prominently before the legislators of our country; it invades and has its influence in every department of governmental management. In the earlier days of our republic, when little revenue was required for the simple wants of State and municipal government, taxes were levied on specific objects, real estate bearing the chief burden. Since 1850 the rapid concentration of population in cities, the aggregation of wealth, the constant formation and evolution of new forms of industry, the growth of railroads and other public service corporations have made necessary a modification of tax systems in order to reach new and less tangible forms of wealth. Again, the great burden of expenditures put upon the States by the Civil War, the erection and maintenance of substantial public buildings, the establishment of great public institutions essential to the public welfare, reformatory, charitable, penal, insane, blind, diseased, etc., the constantly increasing demands for municipal expenses have exercised the wisdom and ingenuity of legislatures to provide ways and means to furnish sufficient revenue. There is a strong popular demand in all the States for taxation of the franchises of corporations and a noticeable tendency to change the basis of assessment from gross receipts to an ad valorem basis. In the Southern States the tendency is to levy taxes on licenses, privileges and incomes, while many States incline to inquisitorial methods to ascertain the nature and value of property. In the Eastern States there is a growing sentiment in favor of relieving personal property from direct taxation and substituting franchise taxes, excise taxes and inheri-

tance taxes; all of which ultimately involve the taxation of personal property. But the evolution and growth of tax systems has of necessity been slow; the conservatism of Legislatures is opposed to radical change in existing laws, nor has the work of special tax commissions generally produced visible results.

Those States having listing laws for personal property succeed in reaching a percentage of personal to real greater than that in our own State; but the plan is not consonant with public sentiment in our State.

The highest courts have held that double taxation is not unconstitutional; neither is it so to fix a different rate for different classes of property.

It was predicted, when the Court of Appeals declared deposits in savings banks exempt from taxation, both as to the bank and the depositor, that personal property assessment would be greatly reduced and pretext be given individuals for claiming undue exemptions; and similar predictions were made upon the adoption of the law changing the assessment of bank stocks and trust companies. In fact, the exempting of bank deposits did have an appreciable effect upon the total personal assessment of the State, and it is true that during the first year of operation of the bank and trust company flat rate, personal property assessments throughout the State decreased nearly $100,000,000. It has at this time more than regained that loss; and there appears the large increase of $147,054,111. This is attributable chiefly to the remarkable gain in New York city. Taxes upon this amount are received by the localities, together with a tax of one per cent. upon the capital stock of banks, aggregating more than two millions and a half; and to the State direct from trust companies and savings banks is paid $2,417,254. Estimating this increase

in personal property assessment at the local tax rate, and the tax upon the bank stock, there appears an aggregate of nearly $5,000,000 received by the local treasuries for local purposes and $2,417,254 by the State direct in excess of personal property assessment prior to the enactment of these measures affecting financial institutions.

The personal property assessment for local purposes for the entire State, the year prior to the change of method of assessing banks and trust companies, 1900, was $672,715,703. The same assessment for 1902 was $672,149,054, showing a loss in assessment of $566,649, or a tax of between $12,000 and $13,000.

The aggregate of bank stock assessed in 1902 in the entire State was $254,621,963, upon which a tax of $2,545,731.34 was paid into local treasuries.

Trust companies prior to the law of 1901 paid very little personal property tax. Under the present law during the year 1902 these latter companies paid into the State Treasury $1,680,029.90 and the savings banks $737,225.20.

That the tax measures recently inaugurated are advantageous and of great benefit to all property holders is proven beyond doubt for the reason that equity is more nearly preserved among the different classes of property, and these properties heretofore escaping entirely or to a large degree are now contributing to the cost of State and local government.

The reduction of the local tax rate in New York City from .0227 to .0141, chiefly due to the vastly increased assessment in that city, should be an incentive to local assessors throughout this commonwealth to renewed diligence and faithful effort in obtaining, placing and retaining upon the rolls all property within their jurisdiction not exempt to the end that the burdens of taxation may be more equally distributed.

Recognition that some method should be found by your honorable body for securing from mortgages some return for the common treasury is constantly widening. In country as in city this form of property is the most difficult in practice and unsatisfactory in results with which assessors must cope.

A slight annual tax graduated to conformity with interest rate would work the larger equity. It would yield large revenue for apportionment between local and State treasuries. But above and beyond revenue consideration would be the universal gain in respect for more uniformity of bearing in tax provisions. Bills treating this subject are now before your honorable body.

PERSONAL PROPERTY ASSESSMENTS.

1902.

Counties outside of Greater New York	$145,748,915
Counties comprising Greater New York	526,400,139
Total for State	$672,149,054
Of Greater New York personal	$526,400,139
Amount of corporate assessments was	158,084,599

Or nearly 30 per cent.

Of the corporate assessment	$158,084,599
Not taxable locally for State purposes (see section 202)	109,973,460
Leaving corporate personal assessments liable for all purposes	$48,111,139

A trifle more than 9 per cent of total for Greater New York.

1903.

Greater New York personal for 1903	$680,866,000
Amount of corporate assessments	172,169,101

Or 25+ per cent.

Amount of corporate personal not taxable locally for state purposes.	119,265,596
Deducting it therefrom would give corporate personal liable locally for all purposes	$52,903,505

A trifle over 7½ per cent. of total for Greater New York.

The increased assessment of Greater New York for the year 1903 is:

On real estate	$1,420,903,247
On personal property of individuals and estate	140,381,451
On personal property of resident corporations	13,610,303
On personal property of non-resident corporations	474,199
Making a total of	$1,575,369,200

This increase, together with that of the other counties of the State, will make a total assessment of real and personal property for 1903 of $7,568,713,123.

The ratio of the assessed valuation of the real and personal property of corporations to the aggregate assessed valuation for the entire State in 1901 was 15.7 per cent., and in 1902 it was 16.9 per cent. (See pages 391 and 395, State Board of Tax Commissioners' Report for 1902).

VALUABLE TABLES.

Much of valuable data will be found in condensed form in the tabulations herein presented.

The summary of personal property of corporations operating street utilities, as reported to this Board, will be found interesting, in a subjoined table.

There is also appended an exhibit of the assessments classified as to cities, villages and the rural districts for 1902.

It should be borne in thought that the State equalization table is based each year upon the figures of the year before. The figures for 1903 will come before the State Board of Equalization in September, 1904, and the assessment roll footings of 1903 thus equalized in 1904 are those upon which the direct State tax will be payable in 1905.

Inclusion of the report of this Board to the State Board of Equalization obviates duplication of much which would otherwise need to find detail herein.

SHOWING OF THE ROLLS.

The total assessed value of the property in this State in 1903, as revealed by the local assessment rolls and compared with the showing of 1902, follows:

Real property.		Personal property.	
1903	$6,749,509,958	1903	$819,203,165
1902	5,297,763,882	1902	672,149,054
Increase	$1,451,746,076	Increase	$147,054,111

Total increase in the assessment of the wealth of the State during the past year, $1,598,800,187.

The increase in the city of New York alone will be in realty $1,420,903,247 and in personalty $154,465,953. The explanation that this radical appreciation is chargeable to an expansion of bonding limitation will apply as well to the large advances heretofore made, from time to time, in other of the larger cities of the State. Whatever the inspiration, the effect is undeniably beneficial.

VARIATIONS OF A LUSTRUM.

The present State Tax Commissioners have twice officially visited each county in the State, and one-half the counties three times each, during the five years past, meeting upon these occasions the supervisors and assessors of the counties. They have made in addition many visitations to the various cities in connection with special franchise work. There are in the State 975 tax districts; 1,258 supervisors and 2,909 assessors. The following annual variations have occurred in assessment in that period:

Year.	Real.	Personal.
1899	$4,811,593,059	$649,709,693
1900	5,093,025,771	593,895,907
1901	5,169,308,070	585,092,312
1902	5,297,763,882	672,149,054
1903	6,749,509,958	819,203,165

ASSESSMENT AIDS.

The practical workings of the method of separately assessing land and the buildings thereon, being now tested in New York

City, is being watched by tax students with much concern. Some apprehension exists that it may operate to supply two resources to seekers of writs of certiorari where but one has presented itself heretofore; but there can be no two opinions as to the desirability of the publicity feature throughout the State.

A town board may procure from a county clerk and supply to its supervisors periodical lists of transfers to advantage, where boards of supervisors omit to arrange for such information, to all the townships in a county. It may be found to cost less than the per diem of assessors in individual searching of the records.

The plan in force in some counties of supplying a competent legal adviser to all the officials of such counties, including assessors, is reported advantageous; as is the supply by a township of the counsel of a qualified civil engineer to its assessors having largely to do with railroad and bridge and tunnel valuations.

DEPARTMENT MAINTENANCE.

Estimate has been made with care and transmitted to the Ways and Means Committee for appropriation for the maintenance of this department for the year beginning October 1st next. The average annual cost of such maintenance is approximately $60,000. Utilization of unexpended balances may apparently vary somewhat this sum, but not materially in fact. Reference is made to the Comptroller's report for detail of expenditure. Should proceedings now before referees necessitate attendance of expert engineer witnesses, outside our own staff, their compensation must depend upon future provisions by the Legislature, since it is impossible to anticipate the extent of such service, if any.

Respectfully,

GEORGE E. PRIEST,
J. EDGAR LEAYCRAFT,
LESTER F. STEARNS,
Commissioners.

STATE BOARD OF EQUALIZATION.

Minutes of the State Board of Equalization at its meeting held at the office of the Secretary of State, in the city of Albany, on the 1st day of September in the year 1903.

Present: S. Fred Nixon, Speaker of the Assembly; John F. O'Brien, Secretary of State; John Cunneen, Attorney-General; Edward A. Bond, State Engineer and Surveyor; George E. Priest, Tax Commissioner; J. Edgar Leaycraft, Tax Commissioner.

Absent: Frank W. Higgins, Lieutenant-Governor; Nathan L. Miller, Comptroller; John G. Wickser, State Treasurer; Lester F. Stearns, Tax Commissioner.

On motion of Mr. Priest, Speaker Nixon was made Chairman.

On motion of Mr. Priest, Peter Deyo was made Secretary.

Upon request of the Chairman, the following report of the Tax Commissioners was submitted:

To the State Board of Equalization:

The grand total of the footings of the assessment rolls of the 61 counties for 1902, subject to local taxation for all purposes, as reported to this Board, is as follows:

Real estate	$5,297,763,882
Personal property	556,736,239
Total	$5,854,500,121

An increased total over 1901 of $100,099,739.

The realty assessment in 1902 was larger by $128,455,812 than in 1901. In 1901 the gain over 1900 in realty assessment was $76,282,299. In the assessment of real estate in 1901 there was included $256,150,765 in special franchise valuations, certified by this Board to the local rolls, and in 1902, $268,017,770.

The increase in assessments in this State in 1902, as in 1901, was made wholly upon real estate and represents new build-

ings and betterments and special franchise valuations. The instances are isolated and not considerable of enhanced assessment of previously existing realty. The recent notable increase in New York county cannot figure in equalization until the assessments of 1903 come before your honorable body in the equalization work of 1904.

In 1901 the loss from the rolls in the assessment of personal property, compared with 1900, was $8,803,595. In 1902 the loss under 1901 is $28,356,073, a diminution so considerable in twelve months that it must invoke the anxious attention of your honorable body and of the Legislature. It betrays a condition warranting the appeals to the Legislature from this Board, in its recent annual reports, for prompt and effective remedial treatment. So difficult, indeed, impossible, has it become to obtain and retain assessments of property in this elusive form upon the rolls that in very large numbers local assessors express the hope, by letters and at our county visitations, that the Legislature will very soon, in its wisdom, provide some more uniformly comprehensive method for fairly reaching and securely holding all personal property for taxation than now prevails; or in equity and justice declare it all free and exempt from taxation.

The apparent increase in real and shrinkage in personal for 1902, the latest year for which data is attainable, is thus shown, in contrast:

	Total assessment of realty.		Total assessment of personalty subject to State tax.
1902	$5,297,763,882	1902	$556,736,239
1901	5,169,308,070	1901	585,092,312
Increase	$128,455,812	Decrease	$28,356,073

From increase on realty	$128,455,812
Deduct decrease in personal	28,356,073
Apparent increase on both in 1902 over 1901	$100,099,739

Since the sum to be raised for canal purposes, permitted by the constitution to be paid in no other way than by direct levy upon the counties, upon the table to be adopted here to-day, is $761,085.02 as against $748,072.05 last year, it follows that the direct State tax to be collected next year will be a minor item to any one county in 1904 as it was in 1903. Upon the table here-

with presented is shown the direct State tax paid by each county in 1903 in comparison with the same for 1904, in event of adoption of such table. The inconsequential variations result in part from the $13,012.97 additional to be raised.

The official visitations required by law have been made by this Board during 1903 to the following named counties:

Cattaraugus,	Lewis,	Rockland,
Chenango,	Livingston,	Schenectady,
Clinton,	Monroe	Schoharie,
Delaware,	Nassau,	Schuyler,
Dutchess,	New York,	Steuben,
Essex,	Oneida,	Suffolk,
Franklin,	Otsego,	Sullivan,
Fulton,	Queens,	Ulster,
Greene,	Rensselaer,	Warren,
Hamilton,	Richmond,	Washington.
Kings,		

The attendance upon these sessions by the local taxing officials has been large and punctual. The interchange of information between the visiting and the visited officials has been considerable, and much of it valuable in its influence upon the actual, practical taxation work of the State. The instruction required by law has been imparted orally at these visitations and the many recent variations by legislative amendments explained. Our department conducts a large correspondence directly with the local assessors, in guidance of their work, during a large portion of each year. Each visitation creates an increasing volume of correspondence from the locality visited.

The Board has inquired into the methods of local assessments; examined assessors and supervisors as witnesses under oath; compared sales considerations with assessed values; viewed property; questioned others than officials as to values, and in all ways permissible has sought such information as would qualify it to apportion with fairness to each county, as compared with all the other counties, its just rating in the schedule of percentages which forms the basis of the table of equalization now awaiting your action.

Hearings at our office have been accorded to individuals, counsel, committees and delegations seeking advantageous county ratings. We have sought to be as fair with these special pleadings as with the counties not thus especially represented.

We present the equalization table prepared by us and recommend its adoption by your honorable body.

We have the honor to be,

Very respectfully,

GEORGE E. PRIEST,
J. EDGAR LEAYCRAFT,
LESTER F. STEARNS,
State Board of Tax Commissioners.

Dated ALBANY, *September* 1, 1903.

There being no appearance before the Board in reference to matters of equalization, the Board went into executive session.

IN EXECUTIVE SESSION.

On motion of Secretary of State O'Brien the equalization table, as reported by the State Board of Tax Commissioners, was unanimously adopted.

On motion of Tax Commissioner Priest, the Board adjourned sine die.

(Signed) PETER DEYO,
Secretary.

The following table of percentages, showing relation of assessed to actual value of 100, and equalization based thereon for the several counties for the year 1903, was unanimously adopted:

COUNTY.	Percentages.	COUNTY.	Percentages.
Albany	80	Oneida	80
Allegany	75	Onondaga	84
Broome	74	Ontario	75
Cattaraugus	78	Orange	68
Cayuga	74	Orleans	77
